

80301 Insurance Programs and Summary

The College shall establish and maintain an adequate property and casualty insurance program (including Workers' Compensation) to protect the College from liability claims and to protect College property against perils such as fire and windstorm.

Other insurance programs may be established and maintained if required by contract or if deemed appropriate and desirable for the benefit and protection of members of the Board of Governors, students, faculty or staff or to protect College property against loss.

The President shall annually present a summary of insurance coverage to the Board for review.

(Amended 2/25/14)
